INTRODUCTION

This volume contains the 1961-62 ground water level elevation records for the Los Angeles Water Pollution Control Board Region, and for San Luis Obispo and Santa Barbara Counties of the Central Coastal Water Pollution Control Board Region. Appendix A contains depth to ground water measurements and ground water surface elevations in wells in Central Coastal Region (the southern portion of Water Pollution Control Board Region No. 3), together with reference point elevations and the agencies from which data were collected. Appendix B contains the same information for Los Angeles Region (No. 4).

To facilitate machine processing procedures for presentation of basic hydrologic data published in this report, numerical and letter codes were adopted and used to designate hydrologic areas, ground water basins, wells, and other pertinent notes. These codes are described in the following paragraphs.

Designation Code

The areal designation code for hydrologic units and ground water basins is based on a decimal numbering system using the form 0-00.00, although in these appendixes machine limitations have required the shortening of this to the form 00000. The number to the left of the dash refers to the geographical region defined in Section 13040 of the State Water Code. The two digits to the left of the decimal point refer to a hydrologic unit. This unit generally consists of a major watershed which may include areas overlying both water-bearing and nonwater-bearing formations. For simplification, the designation is also given to groups of small adjacent

watershed areas, with similar hydrologic conditions, which drain directly to the ocean. An example of the latter is the Malibu Hydrologic Unit. The two digits to the right of the decimal point refer to a subunit within the hydrologic unit, including as before, areas overlying both water-bearing and nonwater-bearing formations. The locations and numerical codings for the hydrologic units and subunits within the area treated in this report are shown on Plates A-1, "Location of Ground Water Basins, San Luis Obispo and Santa Barbara Counties, Central Coastal Region (No. 3)," and B-1, "Location of Ground Water Basins, Los Angeles Region (No. 4)."

Well Numbering System

The well numbering system used in this report is the State Well Numbering System also employed by the United States Geological Survey and adopted by the Department of Water Resources. In this system, the well is assigned a number that is referenced to the township, range, and section subdivision of the Federal Land Survey wherein the well is located. Within the section, the location of the well is further delineated by dividing the section into 40-acre plots, called lots, lettered as follows:

D	C	B	A
E	F	G	H
M	L	K	J
N	P	Q	R

Within each of these lots, wells are numbered according to the order in which they were assigned state well numbers. For example, a well having the number 10N/18E-26A1, S, would be in Township 10 North,

Range 18 East, Section 26, San Bernardino Base and Meridian, and would be the first well assigned a state well number in Lot A. In this report, well numbers are referenced either to the San Bernardino Base and Meridian (S) or to the Mount Diablo Base and Meridian (M).

For some wells, the letter following the section number is "X". This means that, although the well has been field located and its position accurately plotted with respect to other features in its neighborhood, the map control for the Public Land Survey in that area currently available is inadequate and does not warrant assignment of an accurate lot letter.

Reference Point Elevations

The reference point elevations for the majority of the wells for which data are shown in this volume were obtained by measurement, usually by engineering levels. However, in those instances when a direct measurement is not available, the reference point elevation was estimated from topographic maps. Estimated elevations are indicated by a double asterisk superscript immediately following the value.

Flowing or Dry Well

In the tabulations of ground water levels at wells in this volume, the code words "FLOW" and "DRY" are used in some instances in the column "Dist. R.P. to Water Surface, in feet." The word "FLOW" connotes an observation where water was freely flowing over the top of the casing because the piezometric elevation at the well was greater than the elevation of the top of the casing. The word "DRY" is used when no standing water was observed in the well because the depth to ground water was equal to or greater than the depth of the well.

Questionable Measurements

Certain of the values in the column "Dist. R.P. to Water Surface" in this volume may be followed with an asterisk superscript, which indicates a questionable measurement. The depths to ground water measurement may be questionable because (a) the well was being pumped at the time of measurement, (b) a nearby pump was operating, (c) the casing was leaking or wet, (d) the well was pumped recently, or (e) the measurement was determined to be questionable by the computer. Items "a" through "d" were noted by the fieldmen and included when the data were procured from the various agencies which collected them. As for item "e", the computer was programed to "flag" all measurements for which the change in elevation was in excess of two feet per week, an arbitrary value used to indicate that the change may be unreasonable. This "reasonableness check" was installed primarily to find errors in transcription and to point out possible pumping error measurements. Measurements indicated to be unreasonable were reviewed and, where possible, errors resulting from incorrect transcription removed. Within the limits of the data processing, it was not possible to include in these appendixes the reason for each questionable measurement; however, the reason for an asterisk on any given measurement may be obtained from the Southern District office of the Department of Water Resources.

Agency Code

In the following list are the code numbers for the agencies from which data on ground water levels were obtained. The agency code consists of a five-digit number, the first digit of which is a water

pollution control board region number. Thus, 41101 refers to agency 1101 in Region 4. Because of limitations of punch card space, the agency code has been shown in these appendixes as a four-digit number without the region number. Therefore, the four-digit agency code should always be referred to the region in which the station or well is located, as duplicating numbers do occur with the four-digit agency code.

Agency Code for Central Coastal Region (No. 3)

<u>Agency Code</u>	<u>Agency Name</u>
2100	Ventura County Flood Control District
5000	U. S. Geological Survey at Santa Barbara
5005	U. S. Bureau of Reclamation, Sacramento
5117	San Luis Obispo County Flood Control and Water Conservation District

Agency Code for Los Angeles Region (No. 4)

<u>Agency Code</u>	<u>Agency Name</u>
1051, 3051, and 5050	Department of Water Resources
1101	Los Angeles County Flood Control District
1200	Los Angeles Department of Water and Power
2100	Ventura County Flood Control District
2753	Limoneira Water Company
3102	Orange County Flood Control District
3719	West End Consolidated Water Company
4205	Upland Water Company
4206	Long Beach Water Department
4209	Oxnard Water Department
4736	Southern California Water Company
4748	San Antonio Water Company
4754	Cienega Water Company
5003	U. S. Navy at Port Hueneme
5411	United Water Conservation District

NUMERICAL DESIGNATIONS OF GROUND WATER BASINS

- 4-1.00 Upper Ojai Valley
- 4-2.00 Ojai Valley
- 4-3.00 Ventura River Valley
- 4-4.00 Lower Ventura River Basin
- 4-5.00 Upper Ventura River Basin
- 4-6.00 Santa Clara River Valley
- 4-7.00 Oxnard Plain Pressure Area
- 4-8.00 Oxnard Plain Forebay Area
- 4-9.00 Round Pressure Area
- 4-10.00 Santa Paula Basin
- 4-11.00 Fillmore Basin
- 4-12.00 Piru Basin
- 4-13.00 Eastern Basin
- 4-14.00 Acton Valley
- 4-15.00 Pleasant Valley
- 4-16.00 Arroyo Santa Rosa Valley
- 4-17.00 Las Posas Valley
- 4-18.01 West Las Posas Basin
- 4-18.02 East Las Posas Basin
- 4-19.00 Simi Valley
- 4-20.00 Conejo Valley
- 4-21.00 Coastal Plain (Los Angeles County)
- 4-22.01 Santa Monica Basin
- 4-22.02 West Coast Basin
- 4-23.01 Central Basin Pressure Area
- 4-23.02 Los Angeles Forebay Area
- 4-23.03 Montebello Forebay Area
- 4-23.04 Hollywood Basin
- 4-23.05 Whittier Area
- 4-24.00 San Fernando Valley
- 4-24.01 San Fernando Basin
- 4-24.02 Bull Canyon Basin
- 4-24.03 Sylmar Basin
- 4-24.04 Tujunga Basin
- 4-24.05 Little Tujunga Basin
- 4-24.06 Verdugo Basin
- 4-25.00 San Gabriel Valley
- 4-25.01 Main San Gabriel Basin
- 4-25.02 Monk Hill Basin
- 4-25.03 Pasadena Subarea
- 4-25.04 Santa Anita Subarea
- 4-25.05 Upper Canyon Basin
- 4-25.06 Lower Canyon Basin
- 4-25.07 Glendora Basin
- 4-25.08 May Hill Basin
- 4-25.09 San Dimas Basin
- 4-25.10 Foothill Basin
- 4-25.11 Spadre Basin
- 4-25.12 Puente Basin
- 4-26.00 Upper Santa Ana Valley (Los Angeles County)
- 4-26.01 Chino Basin
- 4-26.02 Pomona Basin
- 4-26.03 Live Oak Basin
- 4-26.04 Claremont Heights Basin
- 4-27.00 Tierra Rejada Valley
- 4-28.00 Malibu Coastal Group
- 4-28.01 Hidden Valley Basin
- 4-28.02 Russell Basin
- 4-28.03 Arroyo Sequit Canyon Basin
- 4-28.04 Trancas Canyon Basin
- 4-28.05 Zuma Canyon Basin
- 4-28.06 Ramona Canyon Basin
- 4-28.07 Solstice Canyon Basin
- 4-28.08 Malibu Creek Basin
- 4-28.09 Las Flores Canyon Basin
- 4-28.10 Piedra Gorda Canyon Basin
- 4-28.11 Las Virgenes Canyon Basin

LEGEND

4-1000 GROUND WATER BASIN AND AREAL DESIGNATION OF BASIN

— REGIONAL BOUNDARY

— HYDROLOGIC UNIT BOUNDARY

--- GROUND WATER BASIN BOUNDARY

NOTE: ALL TOWNSHIP AND RANGE LINES ARE REFERENCED TO SAN BERNARDINO BASE AND MERIDIAN.
